DETAILED ACTION

1. This office action is in response to application 10/549,926 and response filed on 08/27/09. Claims 50-63 remain pending in the application, after cancellation of claims 1-49 and 64-82.

Examiner's Amendment

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Alexandra Daoud (55,992) on 11/18/09.

The application has been amended as follows:

In the Claims:

Claims 1-45, 64 and 66-82 are canceled, due to restriction.

Claim 51-63, change all: "A method", line 1, to --The method--.

The above changes correct minor informality.

EXAMINER'S STATEMENT AS TO THE REASONS FOR ALLOWANCE

3. Claims 50-63 are allowed over the prior art of record.

4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or fairly suggest all of the limitations of the claimed invention including a method for trimming a temperature coefficient of resistance of at least one

Art Unit: 2825

electrical component made from a thermally mutable material possessing a hysteresis characteristic with respect to a dependence of said temperature coefficient on said resistance, while maintaining a substantially constant resistance value comprising applying a heating cycle to trim said resistance value away from a target value and back to said target resistance value, wherein the temperature coefficient of resistance is modified after applying said heating cycle by cycling said resistance value away from a starting point [meaning in one direction away from a starting point] and back towards said starting point [meaning in another direction back towards said starting point], thereby using said hysteresis characteristic of said thermally mutable material.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
